

COVID-19 Vaccine

Information for you and your family

Protect your family now and for the future

- COVID-19 vaccination is recommended for all people aged 12 years and older, including people who are pregnant, breastfeeding, trying to get pregnant now, or might become pregnant in the future.
- The COVID-19 vaccines do not affect your DNA (genetic material) or ability to get pregnant.

Spend more time with family & friends

- By getting fully vaccinated, you can start to do things you haven't done in a while like traveling or spending time with family and friends!

Help to end COVID-19 illness

- The best way to prevent new variants from spreading is to get a COVID-19 vaccine. COVID-19 vaccines protect against serious illness, hospitalization, and death.

**Vaccines are available for free regardless of
insurance or immigration status!
No documentation is needed and there are no
out-of-pocket costs!**
